MEMORANDUM FOR: I&W Working Group Members

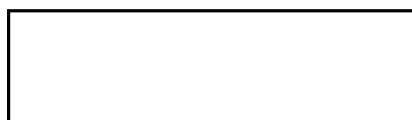

SUBJECT : Next Meeting

1. Herewith a second draft. It is extensively rewritten to meet various criticisms that the argument is not clear, but the substantive changes are minor. I have added a new section on location in IIID.

2. You will see that the recommendations as to the DDCI are now muffled. This is because the DDCI has expressed some reluctance, and I suspect the ball may bounce a rung or two down.

3. When we meet on Tuesday (at 1400 in Room 6E60), I will be aiming for a final paper by the end of the week. We should spend our time on differences of substance, not of language. I will go through the draft paragraph by paragraph but let us not dwell on language unless it impacts on something important.

4. I have had a few suggestions for graphics and would welcome more.
